

Hospital of the Month

Hospital Newspaper highlights one hospital per month as the centerfold feature. Great way to get information about your facility to interested readers.

Shriners Hospitals for Children – Springfield & Boston, MA
Helping Kids Defy the Odds

Shriners Hospitals for Children is a one-of-a-kind international health care system of 22 hospitals dedicated to improving the lives of children by providing pediatric specialty care, innovative research and outstanding teaching programs. Children up to age 18 with orthopedic conditions, burns, spinal cord injuries, and cleft lip and palate are eligible for care and receive all services in a family-oriented environment at a no-charge regardless of income or insurance status.

Two of the 22 hospitals are located in Massachusetts and provide services to children from all over New England and beyond. The Shriners Hospital in Springfield provides orthopedic care to children with problems of the bones, muscles and joints. It is conveniently located just minutes from the Connecticut border at the entrance of interstate 91 and the New 66. The Shriners Hospital in Boston is a premier pediatric burns facility providing comprehensive acute, reconstructive and rehabilitative care to children with burn injuries. Conveniently located off of Route 93, the Boston hospital is affiliated with Massachusetts General Hospital and Harvard Medical School. Both hospitals provide excellent and respectful care to thousands of children each year.

835,000 kids. 85 years. One mission.

Shriners Hospitals for Children is dedicated to improving the lives of kids with orthopedic problems, burns, spinal cord injuries, and more. With the belief that all kids should lead fuller, more productive lives, we've built an entire health care system around this thought. From the most routine to the most complex operations, our unique blend of patient care not only treats the child, but also involves the patient's family in all aspects of care and recovery.

Offering a comprehensive range of services, Shriners Hospitals for Children takes the best possible care of our patients. We customize each child's treatment experience, providing specialized care that addresses our own mission of helping more kids defy the odds.

World-class research. Exceptional physician training. A uniquely collaborative treatment environment. Our 360-degree approach to patient care is just part of the story. Innovations in research continue to serve as the backbone of our health care system. Our role as medical educators has forged relationships with more than 60 medical facilities worldwide. As leaders in the orthopedic and burn fields, our commitment to improving our patients' quality of life is the reason why more physicians, nurses and clinicians choose to partner with Shriners Hospitals for Children.
